April 2024 to June 2024

Music and Movement

Did you know that music and movement in the classroom helps your child with their early literacy skills?

The brain uses similar pathways for processing language and music, meaning that engaging in music and movement activities in early childhood leads to an overall development in speech, language, and literacy skills. Rhythmic awareness from musical training also strengthens sound-to-meaning associations, improving language and reading abilities in children.

Important Dates

23 April
World Book Day
Earth Day

1 May
Labour Day

14 May
Professional Development Day
(No School)

15 May
Buddha's Birthday

10 June
Dragon Boat Festival

19 and 20 June
Last Day of School

Let's end the school year with a party on the 19 and 20 June! We'll sing, dance, play fun games, share delicious foods and surprise treats, and give one another big hugs! Congratulations to our amazing students' for participating in a meaningful and happy year of inquiry and play-based learning. We are proud of all your accomplishments, and wish you an exciting learning journey ahead. Thank you to all our parents and carers for your support, and encouraging your child to try new experiences, participate in group play, and have fun at school. The teachers' treasure the precious moments we spent together, and the wonderful memories we created.

Warm regards,
U2's Teachers

Our Upcoming Themes

April 2024 to June 2024

Favourite Stories

Young children learn language, emotions, creativity, and social skills by reading. Exposure to stories, picture books, music, and role-playing can also help them develop a love of reading. In this theme, we will explore the stories and characters that are dear to us all. We invite you to participate in World Book Day by bringing your child's favourite book to class and sharing it with the whole school.

Celebrations

May and June are significant as we celebrate Mother's and Father's Day. These special occasions are marked by expressing our gratitude and admiration towards our parents through the creation of meaningful crafts and musical performances.

The Dragon Boat Festival is very important in Chinese culture. During this celebration, children learn new vocabulary related to the festival, such as Dragonboat, Zongzi, rowing, etc. The festival's highlight is undoubtedly the thrilling dragon boat race, where everyone can enjoy themselves to the fullest.

Summer

It's finally the season for some summer fun! The temperature is rising, and it's getting quite hot outside. To ensure that our little ones stay cool this summer, we will engage in various imaginative activities, such as going to the beach and taking a vacation. This will provide them with plenty of opportunities to play with water, sand, ice, and bubbles. One of their favourite activities is to clean and wash the baby with soapy water. We might even put on our swimwear and dedicate a whole day to water play! How exciting!

親子班單元通訊

(普通話)

二零二四年 四月~六月

親愛的家長：

時間很快來到本學年的最後一個單元了。我們一路學習普通話，從打招呼、五官、顏色、形狀、交通工具到動物、昆蟲……從聖誕節進入農曆春節，從冬天進入春天，接著即將迎來炎炎夏日。不知道大家對哪一個單元最有興趣呢？接下來這個單元將與食物、夏天做連結，非常有趣！課堂上，我們會利用更多實物、遊戲、教具，幫助孩子們理解詞彙。

感謝各位爸爸媽媽的參與和堅持，在上課時給老師支持與配合，希望這一學年的普通話學習，能讓您的孩子更熟悉普通話的語感，開啟他們學習普通話的興趣。
